Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. It is noted there two duplicated Information Statement Disclosures (IDS) filed on July 07, 2005 and July 10, 2005 respectively. Therefore, only IDS filed on July 07, 2005 is considered by the examiner and the other IDS filed on July 10, 2005 is not considered but placed in the file of record.
2. This application is in condition for allowance except for the following formal matters:
 - A. The disclosure is objected to because of the following informalities: at line 1 of paragraph [0010], a space ought be added between the “variation” and “ ΔVg ” (it ought to be read as “variation ΔVg after correction”).
 - B. Claim 2 is objected to because of the following informalities: At line 2, the “hasa” ought to be changed to “has a”. Appropriate correction is required.
 - C. Claim 5 is objected to under 37 CFR 1.75(a) as being vague and indefinite because period (.) is not presented at the end of the claim i.e. after the “tin oxide”.
3. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
4. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
5. Claims 1, and 3-4 are allowed.
6. The following is an examiner’s statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach the claimed features as recited in claim 1. Specifically, the features recited in claim 1 that of “a fingerprint sensor for sensing a fingerprint, the fingerprint sensor comprising: a detecting and processing circuit; and a plurality

of sensing units, each of the sensing units comprising: a switch element comprising a first terminal, a second terminal, and a third terminal, the first terminal is connected to a switch terminal, the third terminal is connected to the detecting and processing circuit, and the switch element is turned on/off by the switch terminal; a first resistor having a first terminal connected to the second terminal of the switch element, a fingerprint influenced intensity of light illuminating the first resistor so that resistance of the first resistor and a voltage level of the second terminal of the switch element change; and a second resistor having a first terminal connected to the second terminal of the switch element and the resistance of the second resistor is fixed; wherein when the switch elements are turned on, the detecting and processing circuit analyzes the fingerprint according to the voltage levels of the second terminals of the plurality switch elements" are not found in the prior art of record.

Claims 3-4 depend from claim 1 and therefore are allowed for the same reasons.

Note: Claims 2 and 5 would be allowable if rewritten to overcome the objection set forth in paragraph 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
